D. MDA, MD Proud and MDD, Motorcycle MD Proud is available in inventory list.

Users are allowed to Order and receive these plate types in their inventory.
### E) Added HB492 Beneficiary Indicator in Owner screen

CVR added the ability to mark a Beneficiary indicator for below Transactions:

- T1 – New Issue transaction
- T2 – Transfer transaction
- T3 – Transfer and Renewal transaction
- T4 – Temporary Title Registration
- T5 – Title Only

The details of the beneficiary will not be entered into the transaction this is just to indicate that a Beneficiary is associated with the transaction in owner screen.

By default the checkbox will be unchecked and enabled for user. Adding the Beneficiary indicator with the deal and transmitted it will prompt the user a confirmation pop up, click on OK button will move the deal for transmission whereas Cancel will keep the user on the same screen.
In 2 steps transaction –

Once the deal reaches to PEND status, Transfer Upon Death form will be printed. Given the facility to remove the beneficiary at the PEND status of the deal if required. However removal/addition is restricted once the deal is transmitted and completed successfully.

The same form will be printed again once after deal completion as well.

In 1 step transaction –

The Transfer Upon Death form will be printed after deal completion (only once).

Dealer need not to fill any Vehicle and Owner information in this form as it’s displayed with these two information automatically. They need to manually enter the Beneficiary information.

This form will ONLY print/display if the transaction consists of any beneficiary indicator. This form will not be printed/displayed if the transaction is not referred with any beneficiary indicator.
In order to print the Transfer Upon Death form, we need to keep the below form setting —

Tools  ➔ Options  ➔ DMV Forms  ➔ DMV Report Options section —

Check the “Print DMV Report On Deal Completion” checkbox and save it.
User can manually print the Transfer Upon Death form after completion of deal (deal should consists on beneficiary indicator) from DMV forms setting available in tool bar of Reg list.
F) Modified Inquiry Report to indicate the beneficiary

Beneficiary is indicated with a new field in the inquiry report (Owner information section) if available while vehicle registration.

New Field - Beneficiary: YES

The same field will be displayed as NO if no beneficiary is available.
